COVID-19 UPDATE 3/20/2020

Things are changing daily as the world reacts to COVID-19. Articles and updates are posted every minute as new suggestions and mandates come from the government and from the medical community. One of the challenges many are faced with is digging through this content and finding factual and pertinent information in a timely manner. In our effort to support and guide our clients through this peculiar time, we have vetted and compiled a handful of resources that we know our contractors will benefit from reading or participating in. We will continue this as a daily update until further notice.

COVID-19 Webinar Series: Implications of the Families First Coronavirus Response Act

Congress passed the Families First Coronavirus Response Act on March 18. What impact does this legislation have on employers? What other HR and employee wellbeing considerations should be address? Learn more from Gallagher's benefits and HR consultants.

4 Key Coronavirus Insurance Coverage Battlegrounds

Property and liability insurers are bracing for an uptick in claims across virtually every line of coverage due to the outbreak of the novel coronavirus, as companies lose money by shutting down large-scale events and businesses face supply chain troubles. Here, Law360 looks at four types of coverage that are especially ripe for disputes.
