Every project leaves a legacy.

As neighborhoods, towns, and entire cities transform through the built environment, Pepper Construction is ensuring the impact we all have on the future supports a quality of life we can be proud of.

Through High Performance construction and next generation technology, our teams and partners are transforming Chicago.

www.pepperconstruction.com

A black and white photograph of five Pepper Construction workers walking away from the camera on a construction site. They are wearing hard hats and high-visibility vests with the Pepper logo. The background shows a building under construction with scaffolding. A large green diagonal graphic is overlaid on the left side of the image.

About the Chicagoland Associated General Contractors

THE CHICAGOLAND AGC is the leading trade association serving the Chicagoland commercial construction industry. Chicagoland AGC members include the leading contractors and suppliers in the Chicago area. Our general contractor members range from large, national firms to smaller, specialized companies and build private and public projects worth more than \$12 billion annually while employing over 10,000 individuals.

EDUCATION & TRAINING

Members may participate in various educational offerings throughout the year. Our Chicagoland Construction Education and Training Foundation hosts Lean Construction Education courses, project management courses, technology-related seminars and more.

SAFETY

Chicagoland AGC is committed to keeping the building trades' workers safe. Safety Forums enable members to learn from experts and share best practices. Our Safety Recognition and Excellence Awards, Safety Alliance with OSHA and annual industry-wide Stand for Safety Week allow members to show their commitment to safety.

CONSTRUCTION LEADERSHIP COUNCIL

The Chicagoland AGC's Construction Leadership Council (CLC) is the area's largest group of young construction professionals. The CLC provides opportunities for the industry's emerging leaders to increase involvement through various leadership development programs and philanthropic endeavors.

GOVERNMENT RELATIONS

The Association proudly represents the interests of the construction industry by working alongside the Illinois Construction Industry Committee (ICIC) and the AGC of America; monitoring bills introduced in the Illinois General Assembly and City of Chicago; supporting construction-friendly bills; and opposing legislation that may adversely affect the industry and our members.

The Chicagoland AGC Political Action Committee supports candidates and elected officials who support the concerns of the construction industry and advocate pro-business legislation.

COMMUNICATIONS

The Chicagoland AGC keeps members informed on the Chicagoland construction industry through our updated website, AGC Connection app, monthly and weekly e-newsletters, and active social media platforms. Please email info@chicagolandagc.org to be included on our distribution.

Katie Gorrie, Shareholder
gorriek@jbltd.com

For more than 40 years, Johnson & Bell, Ltd.'s trial attorneys have offered premier defense representation throughout the Midwest and nationally. While Johnson & Bell's attorneys try a significant percentage of cases in Chicago's Cook County, the firm believes many legal difficulties can be avoided through risk-reduction measures and careful compliance with the law. Their attorneys provide regular legal updates notifying clients of legislative and regulatory changes as they happen. Johnson & Bell continually receives national recognition for its trial and appellate advocacy: American Lawyer's Corporate Counsel Magazine named the firm as one of the Top 100 Law Firms in client satisfaction and Martindale-Hubbell has awarded more than 30 of the firm's shareholders its top mark, an AV-rating. ALFA International, a global legal network, named it 2011 Firm of the Year. These, and countless other accolades, illustrate Johnson & Bell's quest to serve its clients.

This image shows a full page of blank, lined paper. It features approximately 20 evenly spaced horizontal grey lines across its entire width, typical of notebook or composition paper. The lines are thin and light grey, set against a plain white background. There are no margins, text, or other markings on the page.
